

Fire Stopping Specialists

Marina Village, Greystones, Co Wicklow

Providing Turnkey Fire Stopping Services

OUR COMPANY

Cymar Contracting is a family owned business providing professional turnkey fire stopping services throughout Ireland. Our business has grown consistently since it was established in 2014. We have carried out extensive works on some of Ireland's leading landmark projects and continue to enjoy repeat business from very satisfied clients.

Working in partnership with our clients, fire safety consultants and product manufacturers, we provide a problem-solving methodology in our pursuit of achieving the highest quality and safety standards.

We have a proven track record amongst our clients for working diligently, within budget and on time. Each project we undertake is tailored to suit our client's needs whether that's working within a live building, a refurb or a new build.

PRODUCTS & CERTIFICATION

Cymar is ***an approved installer of Fireus Passive Fire Products.***

Fireus Ltd is an Industry leader in the manufacture of fire stopping products based in the UK.

We **install** and **certify** that all products are installed as per manufacturers instructions and recommendations.

Using the SiteWorks app, we provide detailed photographic evidence before, during and after each stage of the project. A detailed report from this app is provided to the client upon completion.

The manufacturers sales agent (SIG IRELAND) are also fully involved for the duration of the project. SIG technical experts provide site inspections, tailored recommendations with bespoke designs when applicable.

Upon completion, SIG Ireland and Cymar Contracting will provide **Certificates of Compliance** with confirmation that all works has been carried out as per the manufacturers instructions and recommendations.
